## Objective

Innovative thinker consistently generating fresh ideas, actively pursuing skill development, and aspiring for achievements. Engaged in the dynamic realm of academia, merging code and creativity to shape the future.

## Education

- **Z. K. M. Higher Secondary School, Bodi** Jun- 2018 to Apr - 2019  
SSLC
- **Z. K. M. Higher Secondary School, Bodi** Jun-2020 to Apr- 2021  
HSC
- **Nadar Saraswathi College Of Engineering and Technology, Theni**  
B. E. Computer Science and Engineering Sep- 2021 to Jun- 2025

## Skills

- C
- Python
- Web development (HTML, CSS,JS)
- Framework (Bootstrap)

## Projects

- **Death Time Prediction**  
Researched and derived inspiration for this project from reading a novel approach to accurately determine the time of death for forensic investigations to assist detectives in their investigations.  
Improved the efficiency of forensic investigations by integrating this technology into existing tools and software and also providing quick and reliable results 100%.
- **Day Module For Python**  
Build a module for finding the day by given date between 1800-2100  
"Constructed the project after perusing the content of the book 'Secrets of Mental Math,'  
implementing unique innovation and crative logic code for this functionality."

## Interests

- Coding

## Languages

- English
- Tamil
